

VELTEKO

**VERTICAL
PACKAGING
MACHINE**

HSV

440

Series

The versatility of Velteko machines allow for packaging your products into the widest variety of bags so you are prepared to face the constantly changing requests and challenges of the marketplace.

VERSATILITY

IT'S NOT JUST A BENEFIT...

IT'S A NECESSITY.

Technical Parameters

	HSV440A-CAM	HSV440A-STEP
Method of operation	Intermittent	Intermittent
Speed	up to 50 bags/min.	up to 50 bags/min.
Maximum width of bag	400 mm	
Different types of bags	51	51
Maximum width of foil roll	1,100 mm	
Electricity	3 x 400 V / 50 Hz	
Air pressure	0.6 MPa	

Standard Equipment

- ❑ Intermittent motion
- ❑ Robust stainless steel construction for maximum reliability and durability
- ❑ Branding components with worldwide availability
- ❑ Servo-driven cross jaws
- ❑ Vacuum-driven film draw-down belt
- ❑ Automatic film centering

Service & Guarantee

- ❑ Spare parts catalogue for your specific machine
- ❑ 12 month / unlimited hours warranty
- ❑ Extended service intervals for reduced cost of ownership
- ❑ 24/7 service available

Camera

- ❑ *BECKHOFF industrial computer with 12" full color touch screen and extended connectivity (USB, RJ45)*
- ❑ *Optional Allen-Bradley control system*
- ❑ *Velteko software recommends operating parameters and displays interactive operational messages in your local language*
- ❑ *Audiovisual online support system service with IP camera for secure remote management and service analysis tools*
- ❑ *Instructional videos displayed on color touch screen*
- ❑ *Images from IP cameras located on the dosing metering device are displayed directly on the home screen*
- ❑ *Machine statistics available by default in the control panel*
- ❑ *Optional RFID system for easy identification*
- ❑ *Optional loading of parameters via barcodes*
- ❑ *Optional operational machine communication with Enterprise System Software*
- ❑ *VELTEKO DATASERVICE – Software tools for improved management and analysis of machine operation*

A world map illustrating the global distribution of international tourism in 2019. The map is color-coded to show the number of international tourists per country, with a legend on the right indicating a scale from 0 to 100 million. Darker shades of red and orange represent higher tourist numbers, while lighter shades of yellow and green represent lower numbers. The map shows a high concentration of tourists in North America, Europe, and East Asia, with significant numbers also in South America, Africa, and Australia. The legend on the right provides a quantitative scale for the color-coded data.
